Based on real events, The Freediver is a love story and a personal odyssey - a tale of courage and endurance, of passion... And sacrifice... A triumph of the human spirit.

Greece... A talented young woman is plucked from obscurity and brought to THE BIOS INSTITUTE, on the idyllic island of Spetses, where she is trained by a great scientist to become the undisputed Freediving champion of the world.

She forsakes the nurturing love of her man to pursue a dream.

"Probably the most beautiful extreme sports movie ever made"
